LOCAL COLLEGE DEVELOPING FINE GRADE OF CORN

The College of Hawaii in its course
in "crop improvement" is developing
superior strains of five standard vari-
eties of field corn suited to Hawaiian
conditions.

The main object sought after in the
experimental breeding work thus far
undertaken is to develop high yielding
strains of uniform quality. The work
done by the agricultural students at the
college farm in Manoa during the
past year has given results that are
highly noteworthy. Some of the ac-
tual yields are exceeding 90 bushels
per acre, with an average of about 70
bushels per acre as an average for all
varieties tested. These are record
yields and show the value of thor-
oughbred seed stocks which are now
being developed with the same care as
is thoroughbred live stock.

Beginning December 1 the College
of Hawaii offers for free distribution
to all who will agree to report upon
the results of their experimental plant-
ings, two pounds of seed of each of
the following four varieties. It re-
quires about eight pounds of seed to
plant an acre so that the seed allotted
to each applicant will be sufficient to
plant a fourth acre of each of four va-
rieties.

Reid's Yellow Dent.—The standard
yellow dent corn of the great corn
belt. Bright golden yellow, red cobs
with medium sized kernels, shelling 35
to 40 per cent of grain. Matures in
about 110 days from early spring
planting at College of Hawaii farm.

Boone County White.—Pure white,
large ears and deep medium rough
kernels. Produces a high percentage
of shelled corn. Requires about 120
days to mature.

Run's Ninety-Day Yellow Dent.—
One of the earliest maturing yellow
dent corns. Ears small to medium
(averaging seven to eight inches in
length, eight to 10 ounces in weight).
A strain of this variety yielded at the
rate of 81 bushels per acre at the col-
lege farm during the past season
where it matured in less than 100
days. Owing to its early maturity this
variety will probably prove itself well
suited to locations of low rainfall.

Silver Mine.—An early maturing
white dent corn. The kernel is deep
and broad giving a vigorous germ.
Shells as high as 88 per cent of grain.
Matures in about 100 days.
This is a noteworthy advance in the
local production of high grade corn,
and is engaging the attention, not only
of small planters, but also of the
large plantation managements.

Morning on CHANGE

It might have been expected that
the advent of copious rains would
have watered irrigation stock, yet a
sale of 30 shares of Hawaiian Irriga-
tion, par value \$10, at 2 reported to-
day, as compared with 9 last previous
sale, would indicate the contrary. Sug-
ar stocks with the exception of Ono-
mea also slumped between yesterday
and today's closing on the stock ex-
change.

Ewa between boards sold down two
points to 13.50 for 200 and 10 shares.
Onomea was steady at 17.50 for 10
shares. Hawaiian Commercial on the
board shed a quarter point in a sale
of 12 shares at 22.75. Oahu fell off
1 1/2 points to 10 flat for 10 shares,
recovering half a point in a subse-
quent sale of 45 shares.
Pineapple advanced a quarter point
to 34.25 in recess for 10 shares in four
unequal lots. Oahu Railway gained
half a point in a reported sale of 50
shares at 122.

COMMERCIAL ITEMS

A. G. Hawes has been appointed su-
perintendent of Delicias plantation, a
60,000-ton estate in Eastern Cuba, and
will leave for his new post the first
of December. Leaving with her hus-
band, Mrs. Hawes will make a trip
to Europe before rejoining him in
Cuba. Mr. Hawes was formerly en-
gineer for Hutchinson plantation.
Ken and is now a draftsman at Hono-
lulu Iron Works. A son of Col. A. G.
Hawes, and having been private sec-
retary and aide to Governor Dole, Mr.
Hawes is particularly well known in
Honolulu and with his wife will be
greatly missed in social circles.

Prices had a tendency to rise on the
New York exchange yesterday, caus-
ing traders to bid up shares in which
a large short interest was supposed
to exist. Irregularity of prices on the
London market for American securi-
ties was without effect on opening
quotations and transactions for for-
eign accounts were small. Reces-
sions were trifling and the market
closed firm.
